[How To Merge Or Link Skype And Microsoft Account FAQ](#)

Move Skype name to another Microsoft account

Enter the Microsoft account you want to move your Skype name to.

We will move your Skype contacts, Skype credits and conversation history there!

Credit cards on your current Microsoft account will not be transferred to your new Microsoft account. If your credit card is used to make recurring purchases with your current Microsoft account (subscriptions or auto-recharge credits) for your Skype or Skype manager accounts, you will need to re-enter the credit card information in your new Microsoft account and update the payment information for recurring purchases on <https://secure.skype.com>.

We can't look up this email address at the moment. Please try again later.
